**To: Bob Compton by email**

Dear Bob,

**7<sup>th</sup> iNet International Conference: Navigators of Learning  
14 – 16 February 2011, East Lansing, Michigan, United States of America**

On behalf of iNet, we would like to extend our warmest thanks to you for your significant contribution to the conference programme in Michigan. Your keynote input was very thought provoking and your participation in the discussion with Yong Zhao helped to generate the type of debate we are keen to have at iNet events.

Delegates greatly appreciated the chance to be among the first to watch your newest film, The Finland Phenomenon, and so we thank you very much for this generosity. All of the presentations and some film footage from the conference including your own are now available at [www.ssat-inet.net](http://www.ssat-inet.net).

Thank you for the animated film of your reflections of your time at the conference. We would like to continue this important debate as we go forward and so we would be interested to see if we can work together again in some way as we rise to the challenge of preparing students effectively for the 21st century.

Feedback from delegates and other contributors to the conference has been excellent and so thank you for contributing and making it such a good experience for us all.

Best wishes

Sylvia Paddock  
**Operational Director: iNet**

Angelina Adams  
**Head of iNet**
